

Cornwall Council have recently decided to **resubmit plans** to build a freight terminal on Battery Rocks beach, **despite** having identified a **less destructive alternative that is no-more costly to operate..**

SAVE OUR SEAFRONT

At a recent public meeting **all bar three of the 500 strong audience rejected plans** to build on Battery Rocks beach. To make sure that the Route Partnership and Cornwall Council **abandon their plans and opt instead for an alternative that protects our historic seafront and supports future regeneration of the harbour** we must stand firm as a community and insist that **Penzance's voice is heard.**

**IF YOU CARE ABOUT PENZANCE
PLEASE ACT NOW!**
